Dead Air

blessthefall

[Intro]
So hard, this is harder than you know
But we we remember everything
It's tough to let it go[Verse 1]
Think of the nights we spent when we were all alone
They remember everything
It's tough to let it go[Pre-Chorus 1]
Here we are again, falling for it
Here we are again and we're falling for it[Chorus 1]
You won't find me there
Cause I'm already gone
Looking for what's left to hang on
Where did we go...[Verse 2]
Now all that we have left unsaid [?]
Monuments of memories to those we left behind[Pre-Chorus 2]
Here we are again and we're falling for it[Chorus 2]
You won't find me there
Cause I'm already gone
Looking for what's left to hang on
Where did we go wrong
You won't find me there
Cause I'm already gone
Looking for what's left to hang on
Where did we go wrong[Bridge]
So wrong, this is harder than we know
But we remember everything
It's tough to let it go
Here we are again, again[Chorus 2]
You won't find me there
Cause I'm already gone
Looking for what's left to hang on
Where did we go wrong
You won't find me there
Cause I'm already gone
Looking for what's left to hang on
Where did we go wrong
