Maggots In a Jar

Aber. INC

Maggots in a jar
Don't know who they are
They will soil their pants
When they meet some pissed of ants

We are created to
Break every single fucking rule
Don't bury your head in the sand
we need to take each other's hands

Ref.
Burn everything to the ground
Let's see what we will find
everything is turned upside down
Take out the power from the clowns
It's
Time to start a riot
Cuz I'm so sick and tired
Of looking at you assholes
Who always keep quiet
Live as you learn
You fucking hypocrit

It's time for this to die

Eating of the poor
Make them pay much more
Making profet from a whore
It's a capital score

burn this motherfucker down

It's time to break their bones
They chart us through our phones
No integrity
Authorities rule your life

I'm gonna take your tie
And slowly smother all of your lies
My blood is paying your bills
Your food, your booze, your shoes, your pills

Ref.

Lickspittle happy tickle for their toes
Kindergarden for their own
Don't really care what the people say
Just shut up and let them play
