

2nd Moves to Twin

Guided By Voices

She can take me all the way
I have more to say but I can't have you
step into my world ??? I love you I got one thing she says two things
may be more things should be blue things
I love blue, and yellow too
I like to end with second moves to twins
made over and over again a band that swings hopi girls yell ???
????????? yeah that's for me
