

# Teeth

## Vietnam

The Man is attracted to the Woman  
And at the same time repelled  
Like a sharp pain, that strikes in your teeth  
Your heart is on fire with the starfish  
Which are the symbols

Of Teeth Of Teeth Of Teeth Of Teeth  
And the same teeth, are used for  
Castration, Mastication, Titillation, Na na na na

The Woman is viewed on defensive  
And the Man is pulled and repelled  
Like a conflict on the beach  
And you're face down in the sand  
Feel the grit, in your mouth  
When you bite down, on your teeth  
Taste the salt, in the blood  
That comes from the cuts  
And the pain

In your teeth In your teeth In your teeth In your teeth  
In your teeth In your teeth In your teeth In your teeth
