

# My Weakness Is None Of Your Business

## Embrace

Don't wanna let you down  
I've been lucky I was lost  
Now I'm found You could be the first  
In the universe, who's glad  
They're watered down And that's why  
I get that shallow feeling that you like  
I'll never learn that I can't win Don't wanna make a row  
You do and it's your loss  
I'm around I don't mind doing everything  
Hallelujah, you're the one  
Come back now Sometimes  
I get that shallow feeling that you like  
That you're hurt, don't change a thing Because my weakness is none of your business  
But bad will always collect to one big melting pot  
And all my weakness is none of your business  
Somehow it always collects to one big melting pot This could be our time  
This could be our time  
This could be our time
