

Sweet Soul Sister

The Cult

All the hip young things trying to make a scene
Living out forbidden dreams
Star spangled banner flutters in the sky
Time hustles those who wait to die Come on little honey
Come on now, please
Come on little honey and dance with me Sweet soul sister
Keep on pushing till the dawn, well
Sweet soul sister
Forever dancing on and on Ooh, she's a Dior girl, twisting round the world
Midnight crush boogie scene
Firm fixed expression, sensual, tender, smooth
Sexual panther, beautifully cool Come on little honey
Come on now, please
Come on little honey and dance with me Sweet soul sister
Keep on pushing till the dawn, well, well, well
Sweet soul sister
Forever dancing on and on, yeah Hustle and strut through Paris at night
Hustle and strut
Hustle and strut through Paris at night
Hustle and strut
Say, "Na na na"
Say, "Na na na, yeah" City of sin
Come and let me in
City of sin
Come and let me in, ow Sweet soul sister
Keep on pushing till the dawn
Sweet soul sister
Forever dancing on and on Sweet soul sister
Keep on pushing till the dawn
Sweet soul sister
Forever dancing on and on, yeah
