Sweet Soul Sister

The Cult

All the hip young things trying to make a scene
Living out forbidden dreams
Star spangled banner flutters in the sky
Time hustles those who wait to dieCome on little honey
Come on now, please

Come on little honey and dance with meSweet soul sister Keep on pushing till the dawn, well

Sweet soul sister

Forever dancing on and onOoh, she's a Dior girl, twisting round the world Midnight crush boogie scene

Firm fixed expression, sensual, tender, smooth Sexual panther, beautifully coolCome on little honey

Come on now, please

Come on little honey and dance with meSweet soul sister Keep on pushing till the dawn, well, well, well

Sweet soul sister

Forever dancing on and on, yeahHustle and strut through Paris at night Hustle and strut

Hustle and strut through Paris at night

Hustle and strut

Say, "Na na na"

Say, "Na na na, yeah"City of sin

Come and let me in

City of sin

Come and let me in, owSweet soul sister

Keep on pushing till the dawn

Sweet soul sister

Forever dancing on and onSweet soul sister

Keep on pushing till the dawn

Sweet soul sister

Forever dancing on and on, yeah
