

We Are Blessed

Leroy Powell

I lie down in the grass
And stare up at the trees
If that is all that's left,
It's enough for me

In spring the flowers bloom
I hope my days will last
To be here with you, life goes by so fast

We are blessed
And I'm so grateful for all the rest of my time spent with you
We are blessed
And I'm so grateful for all the rest of my days

Sunlight hit my face
I could not help but cry
Filled with all his grace
Filled with all his might

And all your kindness
I am overwhelmed
For all my sadness
Cannot hurt me now

We are blessed
And I'm so grateful for all the rest of my time here with you
We are blessed
And I'm so grateful for all the rest of my days

When you lay me down
Won't you cover me
When my time is up
Return me to the sea

And mark a journey's end
For I have played a part
I have been a friend
I have touched a heart

We are blessed

And I'm so grateful for all the rest of my time here with you

We are blessed

And I'm so grateful for all the rest of my days.
