Low Light

Luno (US)

Clouds roll by
Reeling is what they say
Or is it just my way?Wind blows by low light
Side tracked low light
Can't see my tracks your scent way backCan I be here all alone?
Clear a path to my home
Blood runs dry
Books and jealousy tell me wrong
All I feel calm
Voice blows by low light
Car crash low light
Can't wear my mask your first my lastVoice goes by
Two birds is what they'll see
Getting lost upon their way
Wind rolls by, low light
Eye sight, low light
I need the light
I'll find my way from wrong, what's real?
The dream I see
