Captive

Sarah Harmer

I wanna be held captive
Forget the way I acted
It's just I'm out of practice
And distractedHold me to this thing, darling
And bring a ladder we'll climb to the rafters
As long as there's a view to look to
Fence me in and keep me close to youI wandered for a long time
I forgot my light
You threw me a lifeline
Pulled me out of the dark nightHold me to this thing darling
And bring a ladder we'll climb to the rafters
As long as there's a view to look to
Fence me in and keep me close to youThere will always be a lamp lit
Look how far the light is casting
In the soft and steady you can see it
Glowing with a feeling, this feelingI wanna be held captive
Look at the way I acted
I'm just so out of practice
And distracted
