

# A Town Called Hypocrisy

## Lostprophets

Can you take this broken boy  
And put the pieces back as one?  
Though he has all of his toys  
He is never having fun Because it's not enough  
Now we're growing up  
We are giving up  
We are moving on Because it's not enough  
We were growing up  
We are giving up  
And I won't hear what you say so Save your sympathy  
Who do you think you're fooling?  
Everything is dead  
Now you welcome me to a town called hypocrisy Save your sympathy  
Who do you think you're fooling?  
Everything is dead  
Now you welcome me to a town called hypocrisy Town called hypocrisy Can you take this lonely girl?  
I pick her up from off the ground  
'Cause there's no pride, to be found  
When you follow sheep around  
And no future here, no future for us in this town Because it's not enough  
Now we're growing up  
We are giving up  
We are moving on Because it's not enough  
We were growing up  
We are giving up  
And I won't hear what you say so Save your sympathy  
Who do you think you're fooling?  
Everything is dead  
Now you welcome me to a town called hypocrisy Save your sympathy  
Who do you think you're fooling?  
Everything is dead  
Now you welcome me to a town called hypocrisy Because it's not enough  
Now we're growing up  
We are giving up  
We are moving on Because it's not enough  
We were growing up  
We are giving up  
And I won't hear what you say so.. Save your sympathy  
Who do you think you're fooling?

Everything is dead  
Now you welcome me to a town called hypocrisy Save your sympathy  
Who do you think you're fooling?  
Everything is dead  
Now you welcome me to a town called hypocrisy
