

# Summer (Club Killers Festival Trap Extended Mix)

Calvin Harris

When I met you in the summer  
To my heartbeat sound  
We fell in love  
As the leaves turned brown And we could be together baby  
As long as skies are blue  
You act so innocent now  
But you lied so soon  
When I met you in the summer When I met you in the summer  
To my heartbeat sound  
We fell in love  
As the leaves turned brown And we could be together baby  
As long as skies are blue  
You act so innocent now  
But you lied so soon  
When I met you in the summer Summer When I met you in the summer Summer
