Alpha Omega

Shiv-R

Hopeless in deep space
You made us wait like you used to
I was an utter disgrace
You made us sing "hallelujah"And now it's all gone
Every time we tried
We cannot pity, we cannot stand around
Nervous for the hope we ache to find
Every time we triedWhich one are you?
Two sides of a coin
Taking pride in plenty of good advice
Win or lose our minds
In a picture, perfect
Every time we've triedNervous for the hope we ache to find
(We cannot pity, we cannot stand around)
Every time we tried
(Every time we tried)
(Every time we tried)We've got to say
All feelings aside
Every new life rises
We all build together(We all see your call)
Win or lose our minds
Win or lose our minds
In a picture, perfect
Every time I triedBreak the mold
Let's shake the ground
Wreak havoc
[x8]We all strike a match
And burn this ordinary life
When the sun rises high
You'd best pray you're the better man
[x2]We've all gotta take to the wall soon
Or break free or burn it to the groundThis ain't no ordinary life [x4]
