

# Happy Days

## Brooke Candy

We got problems  
We got pain  
We got issues  
We're insane  
We got stacks of bills to pay  
It's getting darker every day  
Pills to stay up  
Pills to sleep  
Pill prescription, therapy  
Doctor aren't we just a smile away  
From happy days  
Bo-bought a six pack of freedom  
Ten pack of pride  
Lose in the streets, and I'm feeling alive  
Cigars and Sinatra  
Sparkling some flames  
Killing me softly  
Kiss me again  
If you don't know now you know  
Wheels keep spinning  
If you don't know now you know  
Champagne killin'  
(Sittin' on the hood of my Chevy singing)  
We got problems  
We got pain  
We got issues  
We're insane  
We got stacks of bills to pay  
It's getting darker every day  
Pills to stay up  
Pills to sleep  
Pill prescription, therapy  
Doctor aren't we just a smile away  
From happy days  
Happy days  
Every papers got me straight in my zone  
I follow the hater and he's roasting it more (yeah)  
If you don't know now you know  
Wheels keep spinning  
If you don't know now you know  
Champagne killin'  
(Sittin' on the hood of my Chevy singing)  
We got problems  
We got pain  
We got issues

We're insane  
We got stacks of bills to pay  
It's getting darker every day  
Pills to stay up  
Pills to sleep  
Pill prescription, therapy  
Doctor aren't we just a smile away  
From happy days  
Happy days  
Do it for the love, and make you feel good  
Steady goin' up, and make you feel good  
Rain, rain, go away  
Just bring me my happy days  
Do it for the love, and make you feel good  
Steady goin' up, and make you feel good  
Rain, rain, go away  
Just bring me my happy days  
Sittin' on the hood of my Chevy, Chevy  
Sittin' on the hood of my Chevy, Chevy  
Bout to roll up something heavy, heavy  
Bout to light up something heavy, heavy  
Sittin' on the hood of my Chevy, Chevy  
Sittin' on the hood of my Chevy, Chevy  
Bout to roll up something heavy, heavy  
Bout to light up something heavy, heavy  
We got problems  
We got pain  
We got issues  
We're insane  
We got stacks of bills to pay  
It's getting darker every day  
Pills to stay up  
Pills to sleep  
Pill prescription, therapy  
Doctor aren't we just a smile away  
From happy days  
Happy days
