Stacy

Iyaz

She's mad, been hurt for the very last time,
He's gonna pay for the tears
coming' down her eyes,
Those lies is gonna turn into a crime.
Yeahh.
She says that she's not gonna hurt no more,
He's there but he don't even know, oh ohh
He's layin down under the floor.
Yeah.
Now she's pacing back and back and forth,
He's smiling' but he don't even know
what she's gonna do,
But he's 'bout to find out soon.
Stacy's got a gun now, a gun now
Somebody gettin' gunned down, gunned down.
Nobody really know how, know how
she blow him away.
Stacy on the run now, run now,
Somebody got gunned down, gunned down,
Nobody really know how, know how
she blow him away.
She's scared, thinking' like what have i done?
In her mother car driving' on the run,
Close to the borderline, trying to hide that gun
- from the law who's right behind her car.
She can see them getting close in the rear-view mirror,
She's a killer, i don't think she's gonna get too far.

Now she's pacing back and back and forth,
He's smiling' but he don't even know
what she's gonna do,
But he's 'bout to find out soon.
Stacy's have a gun now, a gun now
Somebody's getting' gunned down, gunned down.
Nobody really know how, know how
she blow him away.
Stacy on the run now, run now,
Somebody got gunned down, gunned down,
Nobody really know how, know how

she blow him away.
She running' and a running' and a running' away,
She running' and a running' and a running' away,
She running' and a running' but can she get away.
She running' and a running' and a running' away,
She running' and a running' and a running' away,
She running' and a running' but can she get away? (running away)
Stacy got a gun now, a gun now
Somebody's getting' gunned down, gunned down.
Nobody really know how, know how
she blow him away.
Stacy on the run now, run now,
Somebody got gunned down, gunned down,
Nobody really know how, know how
she blow him away.
