Light Years (feat. Rivers Cuomo)

Steve Aoki

Light years we've come to call upon you now
We can see you standing in the crowd
Light years we've come to call upon you now
We can see you standing in the crowdLights years, lights years, lights years, lights years
To call upon you now[Bridge]
We are making contact, calling from the stars
And you know who we are
We are making contact, calling from the stars
And you know who we areTo call upon you now, to call upon you now, to call upon you now[Chorus] + [Bridge]
