

# Like You Never Had It

## Florida Georgia Line

I, I been waitin' all day for the sun to go down  
Get away from the noise and the crowd  
Girl, I been dying to get my hands on you  
Run my fingers down your back  
If that's where you like it at  
Get it started just like that I'll love you like you never had it  
I'll get you naked, it's a habit  
I'll have you calling your friends, saying you ain't ever been  
Skin on skin with a man like this  
I love you like you never had it  
(Keep on comin' back, girl)  
I love you like you never had it  
(Best you ever had, girl)  
I love you like you never had it  
(Keep on comin' back, girl)  
I love you like you never had it  
(Best you ever had, girl)  
You, you been wondering where I've been your whole life  
Need somebody that'll fit just right  
Treat your body, blow your mind I'll love you like you never had it  
I'll get you naked, it's a habit  
I'll have you calling your friends, saying you ain't ever been  
Skin on skin with a man like this  
I love you like you never had it  
(Keep on comin' back, girl)  
I love you like you never had it  
(Best you ever had, girl)  
I love you like you never had it  
(Keep on comin' back, girl)  
I love you like you never had it  
(Best you ever had, girl) Lock that door, close those curtains tight  
We're going on and on, and on and on all night  
I'll love you like you never had it  
I'll get you naked, it's a habit  
I'll have you calling your friends, saying you ain't ever been  
Skin on skin with a man like this  
I love you like you never had it  
(Keep on comin' back, girl)  
I love you like you never had it

(Best you ever had, girl)  
I love you like you never had it  
(Keep on comin' back, girl)  
I love you like you never had it  
(Best you ever had, girl)
