

# America

## Foxygen

Merry Christmas from the pines  
Hallelujah, amen  
Just another wish, just another dream  
Just a witch who comforts you  
When you're dying  
When you're dying America  
America  
I cry, Lord, to have used you  
How could I, of all, to have used you?  
If you're already there  
Then you're already dead  
If you're living in America, whoa  
Our heroes are bred  
They just got nothing to lose  
Because they're all living in America, whoa  
In America, whoa  
And the movie girl said  
You walked in on set  
But you only play yourself,  
You're Hollywood.
