Sucking It Out

The Shaker Hymn

Press fast forward, press rewind
Either way I just donâ€™t wanna be here right now
First one in and last one out
Cant stop thinking about where weâ€™re gunna be years from now
The days are getting long
The seas are getting rough
And I cant figure out
When enough will be enough
For all my condescend
And thoughts for all the people that I love
Words just keep on dribbling out
Cant believe theyre coming out of my own mouth
The days are getting long
The nights just roll on in
And I donâ€™t wanna know
When its gunna end
Im sucking it out
Im sucking it out
Its too late into the day
To be thinking of a way
To start all over again, all over again, all over again, â€¦
Im sucking it out
Im sucking it out
