Always On My Mind

Bosson

It's funny how somethings turn out
We're playing at the backyard wondering
How our life would be
The boys were always teasing me
The time we had together the difference
You were a friend to me
I never thought you wanted more than that
You tore me apart my love
I never thought that I was good enough
So now that I know I want to say
You will always be on my mind
You will always be there throughout
The rest of my life, oh baby
You will always be on my mind
You will always be there throughout
The rest of my life, oh baby
We never knew the reason then, no
I was talking to your boyfriend wondering
'Bout my ache inside
You're always coming back to me, yeah
When times were getting rough and you needed
Some love from a friend you trust
I never thought you wanted more than that
You tore me apart my love
I never thought that I was good enough
So now that I know I want to say
You will always be on my mind
You will always be there throughout
The rest of my life, oh baby
I never thought you wanted more than that
You tore me apart my love
I never thought that I was good enough
So now that I know I want to say
You will always be on my mind
You will always be there throughout
The rest of my life, oh baby
