

# Jealous (Demo)

## Gene Loves Jezebel

I really notice that you don't sleep at night  
Say why do you worry, why you hurting inside?  
Who's hurt you baby? I like you a lot  
You are so beautiful and that is a fact Yeah, yeah  
Jealous  
I watch the sun, it cuts through the cloudy skies  
It heals these wounds and makes me glad to be alive So don't you worry, no don't you worry  
I'll make you happy, happy  
Yeah, yeah  
Something's wrong, something's wrong with you Jealous, yeah  
Something's really wrong, something's wrong with you  
Jealous, Jealous, Jealous, Jealous  
Yeah, yeah Yeah, yeah  
Jealous, Jealous  
I spot two lovers on the Old Brompton Road  
I feel so jealous, I need someone to hold Who's hurt you baby? I Like you a lot  
I look at you and I know that something's up  
Something's wrong, something's wrong with you  
Jealous Something's really wrong, something's wrong with you  
Jealous, Jealous, Jealous, Jealous  
How do you like the cat  
Kitty, kitty, kitty
