

# Truce

## Twenty One Pilots

Now the night is coming to an end  
The sun will rise and we will try again Stay alive, stay alive for me  
You will die, but now your life is free  
Take pride in what is sure to die I will fear the night again  
I hope I'm not my only friend Stay alive, stay alive for me  
You will die, but now your life is free  
Take pride in what is sure to die
