With a face from a movie scene
Or magazine, you know what I mean
She's definitely got the style on you
She's definitely got the style on youShe's got two-tone everything
Moving but she just can't move
She's got two phones, everything, you
Moving but she just can't moveBecause "she way out"
I've never seen her dance moves - dancing like "she way out"
"She way out"
I've never seen her talk but I'm telling you "she way out"She said "It's not about your body it's just social implications are
Brought upon by this party that we're sitting in"
And "I'd like to say you've changed but you're always the same.
I've got a feeling that the marijuana's rotting your brain"She's got two-tone everything - way too intelligent
Moving but she just can't move
She's got two phones, everything.
Boyfriend, telling him "Find me cause I'll never find you"Because "she way out"
I've never seen her dance moves - dancing like "she way out"
Because "she way out"
I've never seen her talk but I'm telling you "she way out"Because "she way out"
I've never seen her dance moves - dancing like "she way out"
Because "she way out"
I've never seen her talk but I'm telling you "she way out"The tension is overflowing with every Benson
She's throwing on the floor and in my mouth
She said "I'd love you to stay but that's simply insane -
I've got a feeling that my friends are gonna kick in your brain"Because "She way out"
I've never seen her dance moves - dancing like "she way out"
Because "She way out"
I've never seen her talk but I'm telling you "she way out"Because "She way out"
I've never seen her dance moves - dancing like "she way out"
Because "She way out"
I've never seen her talk but I'm telling you "she way out"Because "She way out"

Because "She way out"
Because "She way out"
Because "She way out"
Because "She way out"
I've never seen her dance moves - dancing like "she way out"
Because "She way out"
I've never seen her talk but I'm telling you "she way out"
