The Way You Found Me

Ben Harper

The more I smoke, the more I drink
The more I talk, the less I think
The less I think, the more I feel
Folks don't change, they just reveal
So take me as I am
Or leave me the way you found me
The way you found me
The way you found me
My mind is broke, my last nerve is shot
What you want from me, I ain't got
Two plus two will never be twenty-two
So please don't tell me twice what I need to do
You got to take me as I am
Or leave me the way you found me
Just the way you found me
The way you found me
Oh, now there's no rules to lust
Only passion and it can be so unjust
If we don't speak, we'll get along just fine
Don't ask me how I'm doing 'cause you know I don't feel like lying
Now take me as I am
Or just leave me the way you found me
The way you found me
The way you found me
