Getaway

Dr. John

Drunk out on cris living in a while
on a cricking road when a.smile
never came where I've been
owing that I've seen you againI was always ready
to make a play
now you're so meet together away
dues I pay is my greatest singin'
will I ever see you again
see you again
see you againNo as the hand in a blunt out of hill
.don't you .I said out
try to break us all we do is be
a love that will never end
will never end
will never end
