Free

Elliott Yamin

Now that the air is out of the way
I'm starting to see myself so clear
Like a light shining into the night
Everybody has a day
When they're criticized for something
But hold on to what you believe
Tell me what you're hiding from
Everybody's on the run
Moving so fast, gotta slow it down and breathe
Hold fast to your dreams
And don't be afraid to fly
Alone in the sky when you do then
You'll be free
Nothing's impossible
Free, alright, alright
You've achieved the unexplainable
Free, I believe that miracles
Happen to those who refuse to be told
They can happen when we least expect
When we let ourselves be free
Every chance that we take
Is one less mistake we can make
Sometimes our blessings are in disguise
Look beyond what they say
It don't really matter what they see
As long as you can believe
Tell me what you're hiding from
Everybody's on the run
Moving so fast, gotta slow it down and breathe
Hold fast to your dreams
And don't be afraid to fly
Alone in the sky when you do then
You'll be free
Nothing's impossible
Free, alright, alright
You've achieved the unexplainable
Free, I believe that miracles
Happen to those who refuse to be told
They can happen when we least expect

When we let ourselves be free, oh, oh
It's difficult to hold on, so easy to let go
And take the road that's least resistant
But you gotta be persistent
Leading them to follow, don't wait for tomorrow
Got to do it today, yeah
Nothing's impossible
Free, alright, alright
You've achieved the unexplainable
Free, I believe that miracles
Happen to those who refuse to be told
They can happen when we least expect
When we let ourselves be free
