Vessel

Sleeper

and now i see that ive been here before
back when i asked the sea for more
and i was swept back to the shoreand now its clear that all through the years
it isnt you ive feared
but just our vessels coming nearand if my vessel floats will you come aboard?
would you give it all, or just what you can afford?waves flood our ears
weve wandered here for years
and now i see thatmy bodys just a vessel
and now i see thatand should i see you at the junction
i trust our vessels will know
