# My Song

## Dakota Moon

Nobody said it would be easy
But nobody said it'd be this hard
Making my way with no direction
Can hardly believe I've come this farI've got a fire
Burning inside my spirit
I've got a dream that helps me to be strong
If there's one thing that I know
With a million miles to go
Nobody, no one
Can take away my songEverybody has a say about the way I should be living
Everybody says they understand
Ain't if funny how when times get tough
And the road gets rough and you're falling
Nobody's there to lend a handI've got a fire
Burning inside my spirit
(Inside my spirit)
I've got a dream that helps me to be strong
(Strong)
If there's one thing that I know
(I know)
With a million miles to go
(Yeah, yeah)
Nobody, no one
Can take away my songNo matter what it takes
The river finds the sea
(River finds the sea)
And nothings gonna break me
I'll won't stop believing
Can't take that away from meI've got a fire
(Got a fire)
Burning inside my
(In my spirit)
I've got a dream that helps me to be strong
If there's one thing that I know, I know
With a million miles to go
Nobody, no one
Can take away my song(I've got a fire in my spirit)
Yeah, yeah, yeah
(I've got a dream)

I've got a dream that helps me to be strong
If there's one thing that I know
(I know)
With a million miles to go
