

The Way It Should Be

The Outfield

Picture an ocean, no one else can see
A sea of emotion just made for you and me
I'd promise you anything if you'd listen to my plea
And if you let me love you, I'd show you the way it should be
Yes, if you let me love you, I'll show you the way it should be
Picture a sad man, alone inside his dreams
It's just how I feel when I try to make you see
You can have anything if you'd put your trust in me
And if you let me love you, I'd show you the way it should
be
Yes, if you let me love you, I'll show you the way it should be
I'm always afraid of what you might think of me
It could all be the same, the way that it used to be
Picture a castle where a fool is all you see
I'm living in hope that one day you might rescue me
'Cause I'd wait forever if I thought you'd set me free
And if you let me love you, I'd show you the way it should
be
Yes, if you let me love you, I'll show you the way it should be
