

I Can Still Feel You

[Collin Raye](#)

It's that feeling that someone is standing behind me
And I turn around and there's no one there
And it's the sensation that someone just whispered
Yeah, I still hear your voice but you're not really here
Your memory is like a ghost, ooh and my heart is its host
I still feel you just as close as skin every now and then
All by myself in a crowded room or my empty bed
There's a place you've touched with your love, no one gets close to
I can still feel you, I can still feel you
No, no, no, no, no
In everything that moves, girl, in everything I do
I can still feel you just as close as skin every now and then
All by myself in a crowded room or my empty bed
There's a place you've touched with your love, no one gets close to
