

Raise the Flag

Airbourne

The battle ain't over
The fight goes on
We'll never surrender
We're still standing strong As long as you're alive, we're alive
Rock 'n' roll will never die
From the southern stars
To the northern light
Rock 'n' roll will survive We're stoking the flame
With high octane
We'll never weaken or fall
Now is the time for you and I
To answer the call Raise the flag
Raise the flag
Come on, raise the flag
Raise the flag for rock 'n' roll
Raise the flag We're taking ground
Every night and day
We got the pedal down
Yeah, we're going all the way As long as you're alive and we're alive
Rock 'n' roll will never die
From the southern stars
To the northern light
Rock 'n' roll will survive We're stoking the flame
With high octane
We'll never weaken or fall
Now is the time for you and I
To answer the call Raise the flag
Raise the flag
Come on, raise the flag
Raise the flag for rock 'n' roll
Raise the flag The war ain't over
The fight goes on
We'll never surrender
We're still standing strong Yeah, we're stoking the flame
With high octane
We'll never weaken or fall
Now is the time
To answer the call Raise the flag
Raise the flag

Come on, raise the flag
Raise the flagCome on, raise the flag
Raise the flag
Raise the flag
Come on, raise the flag
For rock 'n' rollRaise the flag
Raise the flag
Raise the flag
For rock 'n' rollRaise the flag
