

This Fire Burns Tonight (2009 Remaster)

UFO

White lines on the highway
Rolling out into the night
Got no bag to slow us down
We're travelling light, travelling light tonight Feel the wheels roll away
How many miles have i been gone
Listen girl you never knew
The road goes on all night long [Chorus:]
This fire burns tonight
The streets are alight
Out on this town we are bursting
This fire burns tonight
The streets are alight
(And) out on this town we are bursting Now me and my partners are moving
We run on from town to town
And this here road surface
Is setting them up rolling them down
There's girls out in the neon
Singing blues every night
And you that they'll never love you
They're travelling light, travelling light
