# Let Me Take You Out

## Class Actress

Let me take you out
Downtown tonight
Let me take you out
Follow you home
Watch you write that note
I know you feel all alone
So I'm gonna take you out
There's a crowd of people
Talkin' in your head
Talkin' all at once
They never want to go to bed
For a six year old
Comin' off a water slide
The climb back up
Is like Mount Everest
Like Everest
Like Everest
Do you get out of these ways?
Do you get out of these ways?
