

That's Okay

[Marc Anthony](#)

I remember how it used to be
When you said you were in love with me
Now I'm all alone, sitting by the phone
There's that memory, hanging over me
Oh, you were something
And now we're nothing I still can't believe you're leaving me
In the middle of what used to be
Our thing, that's okay
And I still don't see a reason for you killing me
The way you did that day, that's okay I can't shake all that you promised me
Can't believe I let it conquer me
Now you're on your way to that better day
And I'm here at home, sitting all alone
Oh, you were something
And that's why we're nothing I still can't believe you're leaving me
In the middle of what used to be
Our thing, that's okay
And I still don't see a reason for you killing me
The way you did that day, that's okay
