

# Who Am I Now

## BlackHawk

If someone asked me who I was  
I'd respond in terms of us  
It's hard to recall the day When I didn't think that way  
I was one half of you and me  
That was my identity Who am I know, now that you're gone  
Gotta find out I gotta be strong  
When I had you I had no doubt  
I was the one you loved  
Who am I now Every room that I walk through  
I see a world that's based on tows  
Every friend we ever knew I wonder now whose friend is whose  
Like some ghost come through that door  
Someone we all knew before Who am I know, now that you're gone  
Gotta find out I gotta be strong  
When I had you I had no doubt  
I was the one you loved  
Who am I now I will survive But I don't know how, now that you're gone  
Gotta find out I gotta be strong  
When I had you I had no doubt  
I was the one you loved  
Who am I now Now that you're gone  
Gotta find out I gotta be strong  
When I had you I had no doubt  
I was the one you loved  
Who am I now
