

# Loveland

## Milky Chance

Take me to loveland  
And no one's gonna find me  
'Cause I'm leavin' this old place  
Right o' here Nothing is too far  
I handle that  
Oh trust me  
When we're leavin' this old place  
Right o' here Like she has flowers in her hair  
And you have flowers in your mouth  
'Cause your heart is upside down  
And you get dizzy because of her charisma  
She will love you like a twister  
And you'll be swept away  
Like we were so in love
