# Concrete Walls

## Fever Ray

I live between concrete walls
When I took her up she was so warm
I live between concrete walls
In my arms she was so warmEyes are open the mouth cries
Haven't slept since summer
Eyes are open the mouth cries
Haven't slept since summerI live between concrete walls
When I took her up she was so warm
I live between concrete walls
In my arms she was so warmOh, how I try
I leave the TV on and the radio
Oh, how I try
I leave the TV on and the radioI live between concrete walls
When I took her up she was so warm
I live between concrete walls
In my arms she was so warm
