Good Life

Forever The Sickest Kids

I want all the right words
Taken right from the tip of my tongue
I want girls coming over
At the push of a button
I bet it's nice looking down
From the top of the world
I wanna feel like I never felt before
Hey, I got it all worked out
It's me not you I'm thinking about
Hey, I got it all worked out
It's me not you
I want the good life, spot lights
Fortune and fame, I want the good life
Make me rich, can't be poor
Can't be broke anymore, I want the good life
I want the cars, the cash, the girls, the world
I want everything that I don't own
I want the good life
I want it all
(I want it all, I want it all)
I want all the nice thing in life
I can never afford
I wanna go places
I have never been before
Own a house, have a car
I can take for a ride around town
Turning exit, every traffic light
Hey, I got it all worked out
It's me not you I'm thinking about
Hey, I got it all worked out
It's me not you
I want the good life, spot lights
Fortune and fame, I want the good life
Make me rich, can't be poor
Can't be broke anymore, I want the good life
I want the cars, the cash, the girls, the world
I want everything that I don't own
I want the good life, I want the good life
I want it all

Lend me some money
Loan me the keys to your car
Have a great trip
I'll take care of everything while you're gone
I want the good life
I want the good life
I want the good life
I want the good life
I want the good life, spot lights
Fortune and fame, I want the good life
Make me rich, can't be poor
Can't be broke anymore, I want the good life
I want the cars, the cash, the girls, the world
I want everything that I don't own
I want the good life, I want the good life
I want it all, I want it all
(I want it all, I want it all)
