

# Beouf River Road

## Tony Joe White

There was a bad cloud in the north  
When I woke up this morning  
And to tell y'all the truth  
I was feeling kind of bad myself  
I walked out on the porch  
And the day was a-dawning  
It was such a blue day  
That I wished I just stayed in bed  
I heard the treefrogs calling  
And then the rain started falling down  
On Beouf River RoadI looked up the dirt road  
Lord and the water was rising  
I'd seen the rain upon the water  
And the little man dancing  
My daddy said y'all better get your things together  
'Cause old beouf river done overflowed his banks again  
I picked up my cats and my coonhound  
And we all had a laugh off some high brow  
Away from Beouf River Road  
Ever since the time that I got old enough to remember  
Old beouf river has flooded time and time again  
But we'd always go back  
And gather up all our belongings  
And open up the windows and doors  
And let the sunshine in  
I know it may sound funny  
But I won't trade it for no amount of money  
My life on Beouf River Road  
On Beouf River Road
