

# Silvery Moon

## Jack Jersey

In a little village town in Spanish border  
lives Maria a girl I left behind  
She is just the kind of woman  
never dreamed... (Unintelligible)

I'll always keep in mind  
She looks pretty and I won't forget her  
I'm sure there's no one else for me to find  
Only girl that eyes like burning sparkle in the night  
Cause that girl Maria I left behind

I remember how we danced  
under the silver moon  
While the Spanish guitars played  
that night our love grew  
I remember how we kissed  
under the silver moon  
but I never realized  
i would miss her so

in a little Spanish town  
down by the border  
this Spanish rose  
I'll always keep in mind

In a little village down  
by Spanish border  
lives Maria a girl i left behind  
I'm sure I'll always i'll adore her  
the way she looks is always on my mind  
When she left was like ... (Unintelligible)

in the sky and earth singing high  
only time she sets her arms open wide  
cause this girl Maria i left behind

I remember how we danced under  
the silver moon  
while the Spanish guitars played  
that night our love's grew

I remember how we kissed  
under the silver moon  
but I never realized i would miss her so

in a little Spanish town down by the border  
this Spanish rose I'll always keep in mind

I remember how we danced under  
the silver moon  
while the Spanish guitars played  
that night our love's grew  
I remember how we kissed  
under the silver moon  
but I never realized i would miss her so

I remember how we danced under  
the silver moon
