

Hope for the Hopeless

Papa Roach

Hope for the Hopeless
I'm counting on my bruises
I'm not counting on myself
I've been wreaking all this havoc
'Cause I thought it suit me well
Never care for of what I wish for
Never careful with what I say
Always begging for attention
In my sick and twisted way If I could reach the stars There's hope for the hopeless
Now that I know this
You give me the strength to carry on
The voice in the silence
Is crushing the violence
It's giving me a chance to right these wrongs
I will never quit, this is it
'Cause there's hope for the hopeless
Hope for the hopeless I'm sitting in the shadows
As the bodies hit the floor
And I don't need another reason
Why I can't take anymore
I'm so sick of these excuses
Tired of living in the dark
And I won't be another victim
Starving from an empty heart I'll rise to reach the stars There's hope for the hopeless
Now that I know this
You give me the strength to carry on
The voice in the silence
Is crushing the violence
It's giving me a chance to right these wrongs
I would never quit, this is it
'Cause there's hope for the hopeless I won't suffocate in vain
I won't die in apathy
I stood out on the edge
And faced eternally
So freedom in the fall
When I finally I believe
I'll never be alone There's hope for the hopeless
Now that I know this
You give me the strength to carry on

The voice in the silence
Is crushing the violence
It's giving me a chance to right these wrongs
I would never quit, this is it
'Cause there's hope for the hopeless Hope for the hopeless
