# Chemical Logic

## Static-x

Discover disaster
Dismantled destroyer
Distorted drum fire
Aborted short wire
Ch-chainsaw k-killer
It's over the shoulder
Your sorrow tomorrow
Behave your savior
Illogical choir
We die young, desire
You slither, you wither
The terror, your error
Pig hammer, the static
The bats in the attic
Chemical l-logic
Chemical l-logic
Freak out, head on
I play the part
Tomorrow, you're gone
I live on the limit
Freak on the sonic
Beat on the chronic
Melt down some of this
Chemical tonic
Convulsion iridium
Tactical repulsion, revision
Break it down, break it down
Crush down the pedal
Rush on the metal
Extract some of that
Deafening noise blast
Crank on the heavy
Main switch dirt witch
Chemical logic
Chemical l-logic
Freak out, head on
I play the part
Tomorrow, you're gone
I live on the limit

Freak out, head on
I play the part
Tomorrow you're gone
I live on the limit
Illogical choir
We die young, desire
You slither, you wither
The terror, your error
Pig hammer, the static
The bats in the attic
Chemical l-logic
Chemical l-logic
Freak out, head on
I play the part
Tomorrow you're gone
I live on the limit
Freak out, head on
I play the part
Tomorrow you're gone
I live on the limit
Freak out, head on
I play the part
Tomorrow you're gone
I live on the limit
