German Test Drive

Spymob

When autumn rains come
And the ground rarely feels completely dry
And I'm test driving cars on mountain roads
Take the curve slow, check my digital watch
Gotta keep track of the time
'Cause I've got plans to take my lady out tonightFasten seatbelts, fold around
Defrost windows right awayRunning my hand over the passenger seat
Fingertips tracing the seams
And I feel like I'm strapped into a cockpit
Grip the wheel tight, my speed is up
And a light shower starts coming down
And water's bringing oils up, up to the surface of the roadFasten seatbelts, fold around
Defrost windows right away
Fasten seatbelts, fold aroundOnly supposed to have the car out for an hourWhen autumn rains come
And the ground rarely feels completely dry
And I'm test driving cars on mountain roadsFasten seatbelts, fold around
Defrost windows right away
Fasten seatbelts, fold around
Defrost windows right away
