

# Don't Walk Away

Tommy Page

I was a fool, a stupid fool  
Played with your emotions and devotions  
I was a fool, I was a fool  
(Fool) Give me a chance, one more chance  
A second chance, another chance  
Just give me a chance, chance  
I need a chance Don't walk away  
Oh baby, please don't walk away from me  
Because I need you to stay  
Oh, stay another day and you will see That I will make it up to you  
Of all the hurt I put you through  
Oh, with the games I played  
Please don't walk away Made a mistake  
Oh, my first mistake, only mistake, last mistake  
A really bad mistake, I'm sorry now  
(I'm sorry now) So sorry now, made you cry, told a lie  
Give me one more try  
I'm sorry now, so sorry now Don't walk away  
Oh baby, please don't walk away from me  
Because I need you to stay  
Oh, stay another day and you will see That I will make it up to you  
Of all the hurt I put you through  
Oh, with the games I played  
Please don't walk away Walk, walk, please don't walk away  
Stay, stay stay another day  
Don't walk away Don't walk away  
Oh baby, please don't walk away from me  
Because I need you to stay  
Oh, stay another day and you will see That I will make it up to you  
Of all the hurt I put you through  
Oh, with the games I played Don't walk away  
Oh baby, please don't walk away from me  
Because I need you to stay  
Oh, stay another day and you will see That I will make it up to you  
Of all the hurt I put you through  
Oh, with the games I played Please don't walk away
