

Ride Out

Kid Ink, Tyga, Wale, YG & Rich Homie Quan

Came in at first, had bad luck
Got a whole lot, remember I ain't had nothin'
We done sold out, now everybody mad at me
Tell 'em roll out, now everybody smashin'
Get ready cause you know we 'bout to be a problem
Hope you ready cause you know it 'bout to be a problem
It's the only way we know to go Squad up, never roll alone
And we gon' ride on forever
We ride out together
Pull up right in your zone
Take over the street, that's how we roll
And we gon' ride on forever We ride out together
Fancy when I drive, six cars in the driveway
Cash in the driver door, spend it, do it my way
I fight you like a matador, fresh out the catalog
One fall we all fall, crew like dominoes
Paper chase, vamanos, all my dogs riding smoke
Mob heavy like the Pope, for that pot of gold
We are not alone, boy, better check your tone
You gone need a lot of help, I ain't talkin' bank loans
Sit with us, table last supper
Toast to the brothers, some bad motherfuckers
Yeah, ain't nothin' but pure luxury
You lookin' left to me, should be looking up to me
Preferably one of the best
She ridin' cause we next now and forever to death Be loyal, real, and respect, stay ahead of the rest
We just sit back, relax, doin' things to impress
It's the only way we know to go
Squad up, never roll alone
And we gon' ride on forever We ride out together
Pull up right in your zone
Take over the street, that's how we roll
And we gon' ride on forever
We ride out together
Got no time to waste And no way these niggas stoppin' me, oh no
Flyin' from a mile away
It's not a problem, only real ones follow me
And I can do this with my eyes closed
Blindfold two times over

Ride solo, I got women and got soldiers
I ain't trippin', you try to get it your night's over
Talkin' on Melatonin, get it and fight coma
What's defeat to a giant, niggas feedin' the fire
History, niggas be less them niggas flee when they flyin'
You don't believe it? Then try it
We don't believe in just tryin'
I call it peoples and leave 'em in 100 pieces divided That's cold cutting
And I've been this dope for like four summers
And I ain't really going for the he say, or she say
Keep it G for Pete's sake
I know this shit that bone you pick
Might leave you niggas fillets
It's the only way we know to go Squad up, never roll alone
And we gon' ride on forever
We ride out together
Pull up right in your zone
Take over the street, that's how we roll
And we gon' ride on forever
We ride out together
It's YG 4hunnid! Is you ridin'?'
Is you with all the burglarizing and the violence
If Jimmy got caught up, but you was right there with him
So the police askin' you questions, is you gone keep quiet?
Is you loyal, is you real, is you fake?
When I can't tell that's the type of way that I hate
You got that fake-friend syndrome
There's no cure so them symptoms is gon' show
You know the code, stick around, hold it down, never fold
Like it's a crease up in your Dicky Browns
Hold up, each one teach one
Motivate each one to be something
Cause I ain't just another statistic
I do this, this, and that if you wanna get specific
I'm just tryna make bread come quicker
For me and my day one hittas
Ride out!
