Mad love

Cyga

If I can't get away from you
What am I gonna do
'Cause you hit me just like a dream
Where there's no in-between
'Cause I just fall forever
Fall forever in your eyes
'Cause it's a mad mad love
Mad mad love, mad mad love
Can't help falling now
Falling into mad love
Well you're shorting out all my pride
Like fireworks exploding inside
You're just something, I can't deny
Why tell me baby why
'Cause I just fall forever

Fall forever in your eyes
'Cause it's a mad mad love
Mad mad love, mad mad love
Can't help falling now
Falling into mad love
If I can't get away from you
What am I gonna do
Now you call me up and you're so cool
What do you, what do you want me to do
'Cause it's a mad mad love
Mad mad love, mad mad love
I can't help it, mad mad love
Mad mad love, mad mad love
Can't help falling now
Falling into mad love
