Looking Down

Audiovent

Yeah, my shadow stretches far and free Yeah, it's telling me what I could be Could be 'Cause I'm tired, of looking up All the timeWe'll stand on top of the world Looking down

We'll stand on top of the world Looking downYeah, we'll set ourselves apart in time Yeah, and then we'll leave it all behind I'll rise'Cause I'm tired, of looking out For the lineWe'll stand on top of the world

Looking down

We'll stand on top of the world Looking downWe'll stand on top of the worldYeah, is anybody here like me? Yeah, can you face the sound And decide?We'll stand on top of the world Looking down

> We'll stand on top of the world Looking downWe'll stand on top of the world Looking down To rise above on our own Looking down
