Love

Day Of Fire

From a shattered home
Looking for an open door
Anyway may be the way out
A bleeding telephone
Razor blade cuts on both arms
911 may be the way out
Hey yeah, anybody here now, anyone at all
Is anybody here now?
Have you come and gone
With both heart strings torn
Looking for true love and more
Any day may be the day of
Bruised and battered bones
A broken heart, an open sore
911 may be the way of
Hey yeah, anybody here now, anyone at all
Is anybody here now?
Have you come and gone?
Hey yeah, anybody here now, anyone at all
Is anybody here now?
Have you come and gone?
Hear me when I scream where is love
Overtaking me, where is love?
Screaming out in me, where is love?
Hey yeah, anybody here now, anyone at all
Hey yeah, is anybody here now?
Have you come and gone?
Anybody here now, anyone at all
Is anybody here now?
Have you come and gone
