Game Changer

Johnny Gill

You're a game changer
(That's what you are)
Girl you change the game for me
I'm about the game you want
My heart

Use to run around
Always hanging around in them streets
I was on the prowl
Trying to take down everything I would meet
Well, when you came along baby girl
You changed it all
And stopped all my pain
And guess what I'm saying
Girl we let them down to the love

You're a game changer
(That's what you are)
Girl you change the game for me
(That's what you are)
You're a game changer
(That's what you are)
Sure can change the game on me

I'm not the game you want
You change my life
You change the game
Now all those other girls don't mean a thing
