

Sleep

Zach Deputy

Sleep little darlin sleep so deep tonight, I won't be long before the morning light
Angels standing right by your side, Keeping you safe till I arrive
So very far away, but I count the days, Hour by hour till I can say
Finally I am home I have been gone so long
When Im near your love When I am near When Im near your love When I am near When Im near your love,
babe I am right as rain
little darlin Sleep so deep tonight, It wont be long before the mourning light
and ill be right there right by your side, Keeping you safe till the day i die
So very far away but I do count the days, Hour by hour till I can say
Finally I am home I have been gone so long
Absence makes the heart so fawnd, Of the moments that we look upon
When everything is clear
When I am near your love When I am near When Im near your love
When I am When Im near near your love babe I'm right as rain
say darling you know that I'm right as rain
say baby you know that I'm right as rain
say darling you know that I'm right as rain
